

## Softcell - IT Security Solutions

**SOFTCELL** is a leading IT service provider and Systems Integrator in India. For over 30 years, we have been helping 2000+ enterprise customers manage, optimise and derive the maximum business value from their IT investments.

Our team of 300+ trained professionals spread over six offices all over India, offer a consulting based approach to help align your IT strategy with your business in the following domains

IT Security has always been a focus area for Softcell technologies. We offer end-to-end support to customers - identification of the appropriate technology, demonstrations/proof-of-concepts, supplying, implementing and supporting the solutions. With tie-ups with all the major OEMs, we have executed over 1000+ security projects all over India in all the key security domains
